GIMME2SECONDS

A Public Awareness
And
Motorcycle Safety Program
Mission

To promote responsible vehicle operation on the roadways, motorcycle safety and bring awareness to the community among 2- and 3-wheel riders.

History

This program was started after the loss of an American Legion Rider in which someone made a left-hand turn in front of him and he passed away immediately. Since then several others have passed at the carelessness of those driving four-wheel vehicles and may still be with us today had they had “2 More Seconds”. Many vehicular crashes occur due to distracted, careless and irresponsible driving and some of those crashes result in a death. For all of us on the road whether it be 2, 3, 4 wheels or more have a duty to be responsible on the road and spread safety awareness.

Purpose

• Bring awareness to the public of the purpose of various riding groups in the community.
• Promote safe actions among riders and drivers.
• Bring awareness of those lives lost due to avoidable mistakes on the road.
• Incorporate community safety events to spread awareness.
Agenda
for event organization

• Select a leader for the project.
• Select assistants.
• Select a place to house funds.
• Select a venue to hold the event.
• Plan fundraising activities.
• Invite all riding groups, government agencies, law enforcement, first responders.
• Plan activities for the event.
• Hold regular planning meetings to address any intermittent issues.
• Promote! Promote! Promote!
• Plan repeat events.
Follow Up

- Thank everyone who participated – maybe certificates.
- Choose location for next event.
- Plan, promote, execute!!
