- 200 + Veterans become disabled every day.
- Over 2 million veterans live without insurance.
- **A Study released in 2022 found as many as 44 veterans die on average per day from suicide. Which is 2.4 times greater than the official estimate.**

Death and Burial Benefits Essential Planning Guide

Eligibility: Veterans discharged from active duty, under conditions other than dishonorable and service members who died while on active duty. To verify eligibility for burial and memorial benefits, a copy of veterans' discharge document "**DD214**" that specifies the period(s) of active duty and character of discharge, along with the deceased's death certificate and proof of relationship to veteran (for eligible family members) are all that usually needed to determine eligibility.

Veterans' Preference

- **Since the time of the Civil War, veterans of the U.S. armed forces have been given some degree of preference in appointments to federal jobs.**
- To receive preference, a veteran must have been discharged or released from active duty in the U.S. armed forces under honorable conditions (with an honorable or general discharge). Preference is also provided for the spouse of a veteran with a permanent and total service-connected disability and widows and widowers of deceased veterans who died in service.
- **A veteran with 100% disability can still work, as long as they are not “unemployable”.**
